REASONS FOR ALLOWANCE

1. Claims 1-65 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art taken 2. either singularly or in combination fails to anticipate or fairly suggest the limitations of the independent claim(s), in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in claim(s) 1-24, 41, and 42, wherein the claimed invention comprises a photonic crystal structure and a method of fabricating a photonic crystal, comprising: a method of fabricating a photonic crystal, comprising: a plurality of first microspheres made of a first material, the first material being of a type that will bond to the substrate and form a self-passivated layer of first microspheres to produce a first layer; and exposing the first layer to a plurality of second microspheres made of a second material, the second material being of a type that will bond to the first layer and form a self-passivated second layer of second microspheres; wherein one of the first and second microspheres have RNA strands on a surface thereof, and wherein the other of the first and second microspheres have at least one of complimentary DNA strand, complimentary RNA strands, oligonucleotides and RNA binding proteins on a surface thereof, as claimed.
